Congratulations! Your Senators and Congressmen are hearing the ranchers' voice! We still have a lot of work to do. Keep making the calls! We are still watching the Packers thievery going on on a daily basis. Now they are sending their help home and hardly giving a bid on fats. They say it's because of Covid 19, but how would you trust what any of those hogs say? I will still ask NCBA members to not be afraid to confront your National Headquarters, and ask how can an association joined with the packers really help the Cattlemen? If things don't change soon, it will be the National Packers Association! As a very wise person told me this week, you will hear and see signs that we are BEEF producers? No, we sell cattle, we are ranchers and cattle producers. The Packers & Retailers sell and produce beef!! Cattlemen get the short end all time. Let's make a change! Call P&S, USDA, and keep on Senators and Congressman. Let your voice be heard!! You the Cattlemen deserve it! GOD BLESS RANCHERS, CATTLEMEN, AND CATTLE FEEDERS!

Market Report for Thursday, April 9, 2020
